PROFESSIONAL SUMMARY

Creative and analytical Marketing Strategist with a Computer Science background and hands-on experience growing personal brand accounts to millions of organic views across YouTube, Instagram, Snapchat, and Facebook — with zero paid promotion. Combines brand strategy, content strategy, and digital marketing fundamentals (SEO, digital and marketing analytics) with platform-native content creation and short-form and long-form video editing to build audiences that actually show up. Comfortable using AI tools to speed up research, ideation, and reporting — without losing the judgement that actually makes a strategy work.

SERVICES OFFERED

- Digital Marketing & Growth Strategy — brand strategy, digital growth planning, audience growth, and online brand development
- Social Media Management — content calendars, scheduling, community management, monthly reporting
- Content Strategy & Planning — content pillars, posting cadence, audience analysis, repurposing frameworks
- Content Creation — short-form and long-form video for Reels, Shorts, and TikTok; reaction-style and brand storytelling formats
- Video Editing — pacing, text overlays, sound design, and colour grading edited to perform per platform
- Digital & Marketing Analytics — audience analytics, performance analysis, and data-driven content strategy
- SEO — discoverability fundamentals applied to content and brand presence
- GEO & AI Search Visibility — applies GEO and LLM share-of-voice thinking to keep brands visible in AI-powered search
- AI-Assisted Workflow — uses Claude, ChatGPT, Gemini, and Kimi to speed up research and first drafts, with strategy and final calls staying human-led

KEY RESULTS

Platform	Growth	Top Content	Result
YouTube	96 → 4,200 subs	2.2M views	↑ 4,275%
Instagram	2K → 9.0K followers	2.8M views	↑ 348%
Snapchat	4K → 15.5K followers	1.6M views	↑ 288%
Facebook	835K views / 28 days	17.4K interactions	↑ 332%

AI FLUENCY

Comfortable using AI tools — Claude, ChatGPT, Gemini, and Kimi — to speed up research, ideation, and first-draft captions, while keeping final judgement on strategy, tone, and what actually gets published. Also building working knowledge of GEO (Generative Engine Optimisation) and LLM share of voice, the emerging practice of keeping brands visible inside AI-powered search results. A Computer Science background adds a technical layer most social media professionals don't have — enough to understand platform algorithms and content performance data, not just chase trends.
